

ALL of US

Anyone can save and improve lives through organ, tissue and eye donation.

All of Us Extension Activities

The following extension activities can be used as a companion to the Gift of Life Michigan “All of Us” presentation. They can be assigned before or after viewing the presentation, or as stand-alone activities.

1. Explore the Gift of Life Michigan [blog](#) or [YouTube](#) channel. Choose one blog post or video and write a one paragraph (minimum) summary. Make certain to describe how donation impacted the person, using facts, reasons, details, examples or incidents.
2. Write a personal position statement on organ, eye, and tissue donation. Support your opinion with facts, reasons, examples, and/or details.
3. Explore the [interactive body](#) (site best viewed in Internet Explorer) to learn more about the transplantable organs and tissues. Pick one organ and one tissue and write a summary about their functions. Include any interesting or new facts you may have learned.
4. Complete an organ and tissue donation [word search](#).
5. Create a poster or other promotional items to encourage people to join the Michigan Organ Donor Registry.
6. Create a video public service announcement (PSA) encouraging people to join the Michigan Organ Donor Registry.
